PROFESSIONAL PROFILE

Business Analytics graduate combining a Swinburne University background in data analysis, dashboarding, and requirements consulting with hands-on legal/conveyancing experience managing high-volume, detail-critical settlement files. Seeking to transition into technology and data-driven roles, bringing a track record of translating ambiguous business needs into structured, measurable solutions.

EDUCATION

SWINBURNE UNIVERSITY OF TECHNOLOGY Melbourne, Australia

Bachelor of Business, Major in Business Analytics and Analysis 2023 – 2025

- Led client discovery, requirements mapping, and go-to-market planning for Mdetect's U.S. launch roadmap, later adopted by the client; received the Consultancy Excellence Award (Business Capstone Project).
- Cleaned and analysed a 4,000+ record bank-marketing dataset; built a logistic-regression baseline and a Power BI dashboard covering EDA, feature engineering, and model evaluation (AUC) for stakeholder-ready reporting.

EXPERIENCE

EASYLINK CONVEYANCING Melbourne, Australia

Conveyancing Assistant March 2026 – Present

- Manage 15–20 property settlement files per month end-to-end, coordinating cross-functionally with clients, agents, and financial institutions via the PEXA platform; contributed to more than 50 successful settlements to date.
- Conduct contract review and deposit verification for each file, applying process discipline and attention to detail to maintain data accuracy and meet settlement deadlines.

ALMA MATER COLLEGE AUSTRALIA Melbourne, Australia

Student System and Marketing Coordinator April 2025 – January 2026

- Partnered with the Marketing Manager to design UI/UX improvements for the school's website, enhancing user experience and accessibility.
- Built and executed a content calendar across Facebook, Instagram, and TikTok, driving measurable engagement growth and thousands of site visits.

TRIATIN PTY LTD Melbourne, Australia

Business Analyst Intern August 2024 – November 2024

- Gathered business requirements from clients and developers, translating them into functional and non-functional specifications that guided development of web-scraping models generating over 1,000 qualified real estate leads.
- Partnered with the CTO to scope and propose ERP modernization enhancements, including AI integration, to improve operational efficiency.

GROW PLANTE PTY LTD Melbourne, Australia

Assistant Manager October 2023 – March 2025

- Maintained the company website through SEO content creation and Figma-based UI/UX testing, and supported pitch preparation and market research for applications to national startup programs, including SXSW Sydney 2024.
- Ideated and helped develop Coco AI, an after-sales support chatbot that evolved into “Coco the Creator,” an internal AI automation tool supporting business analyst demo and documentation workflows.

TAN A DAI THANH CORPORATION Ho Chi Minh City, Vietnam

IT Help Desk Intern June 2019 – August 2019

- Managed and supported the company's CRM and ERP systems for staff, and authored a comprehensive internal user guide adopted company-wide.
- Deployed ERP software across 17 factories and 200 computers nationwide.
